 5.5" Touchscreen

 4G + WiFi + Bluetooth

 Ultra fast printing

Engage, accept, protect – effortlessly.

Touch that connects

A sharp 5.5" touch screen puts your brand first – run promos, grab attention, and turn payments into engagement.

Faster payments, happier customers

Accept more payments with dual cameras, an infrared scanner, and a quick-scan button.

Speed meets security

Advanced encryption and real-time fraud protection secure payments, while a high-speed processor powers through tasks.

Always on. Always ready.

Stay connected, anywhere

4G, WiFi, and Bluetooth keep connectivity constant. Process payments, sync data, and serve customers without interruption.

Power to do it all

Multitask seamlessly with a high-performance Cortex A53 processor – payments, loyalty, and orders, all at once.

Your shop, non-stop

A powerful 5150 mAh battery keeps you running all day without interruptions.
